BETTER NUTRITION

Wardley's Perfect Protein™ formula is the first fish food designed to meet the amino acid requirements of fish to support their growth and good health. Amino acid content determines a food's quality, not the percentage of protein.

CLEANER WATER

Most fish foods have too much protein which only results in waste and dirty water. Wardley's Perfect Protein™ formula is designed to provide just what your fish need. The result is cleaner water for you and your fish.
